All-natural plant-based enzymes
& a powerful thermogenic
improves the way your body
processes sugar (or glucose)
from food

WELLBEING MADE BETTER

every ingredient matters

PLANT-BASED ENZYMES

x

This special blend of enzymes is intended to help change the molecular structure of troublesome sugars like sucrose (table sugar) into something more suitable for your body and its health—leading to improved blood sugar management and all the benefits that come with it!

THERMOGP™

+

Keep glucose spikes to a minimum

88% of Americans may experience dysregulated glucose levels, even if they are not overweight. And most don't even know it! Glucose has an immediate impact on our wellbeing, often affecting our mood and hunger. Ever feel "hangry"? That's usually a sign that your glucose levels are lower than normal. Cravings, pimples, mood swings, brain fog—these are all messages from our bodies that there are troubles within.

Transform helps address those issues—and can help ensure they remain a thing of the past. When we regain control of our glucose levels, many aspects of our health can improve

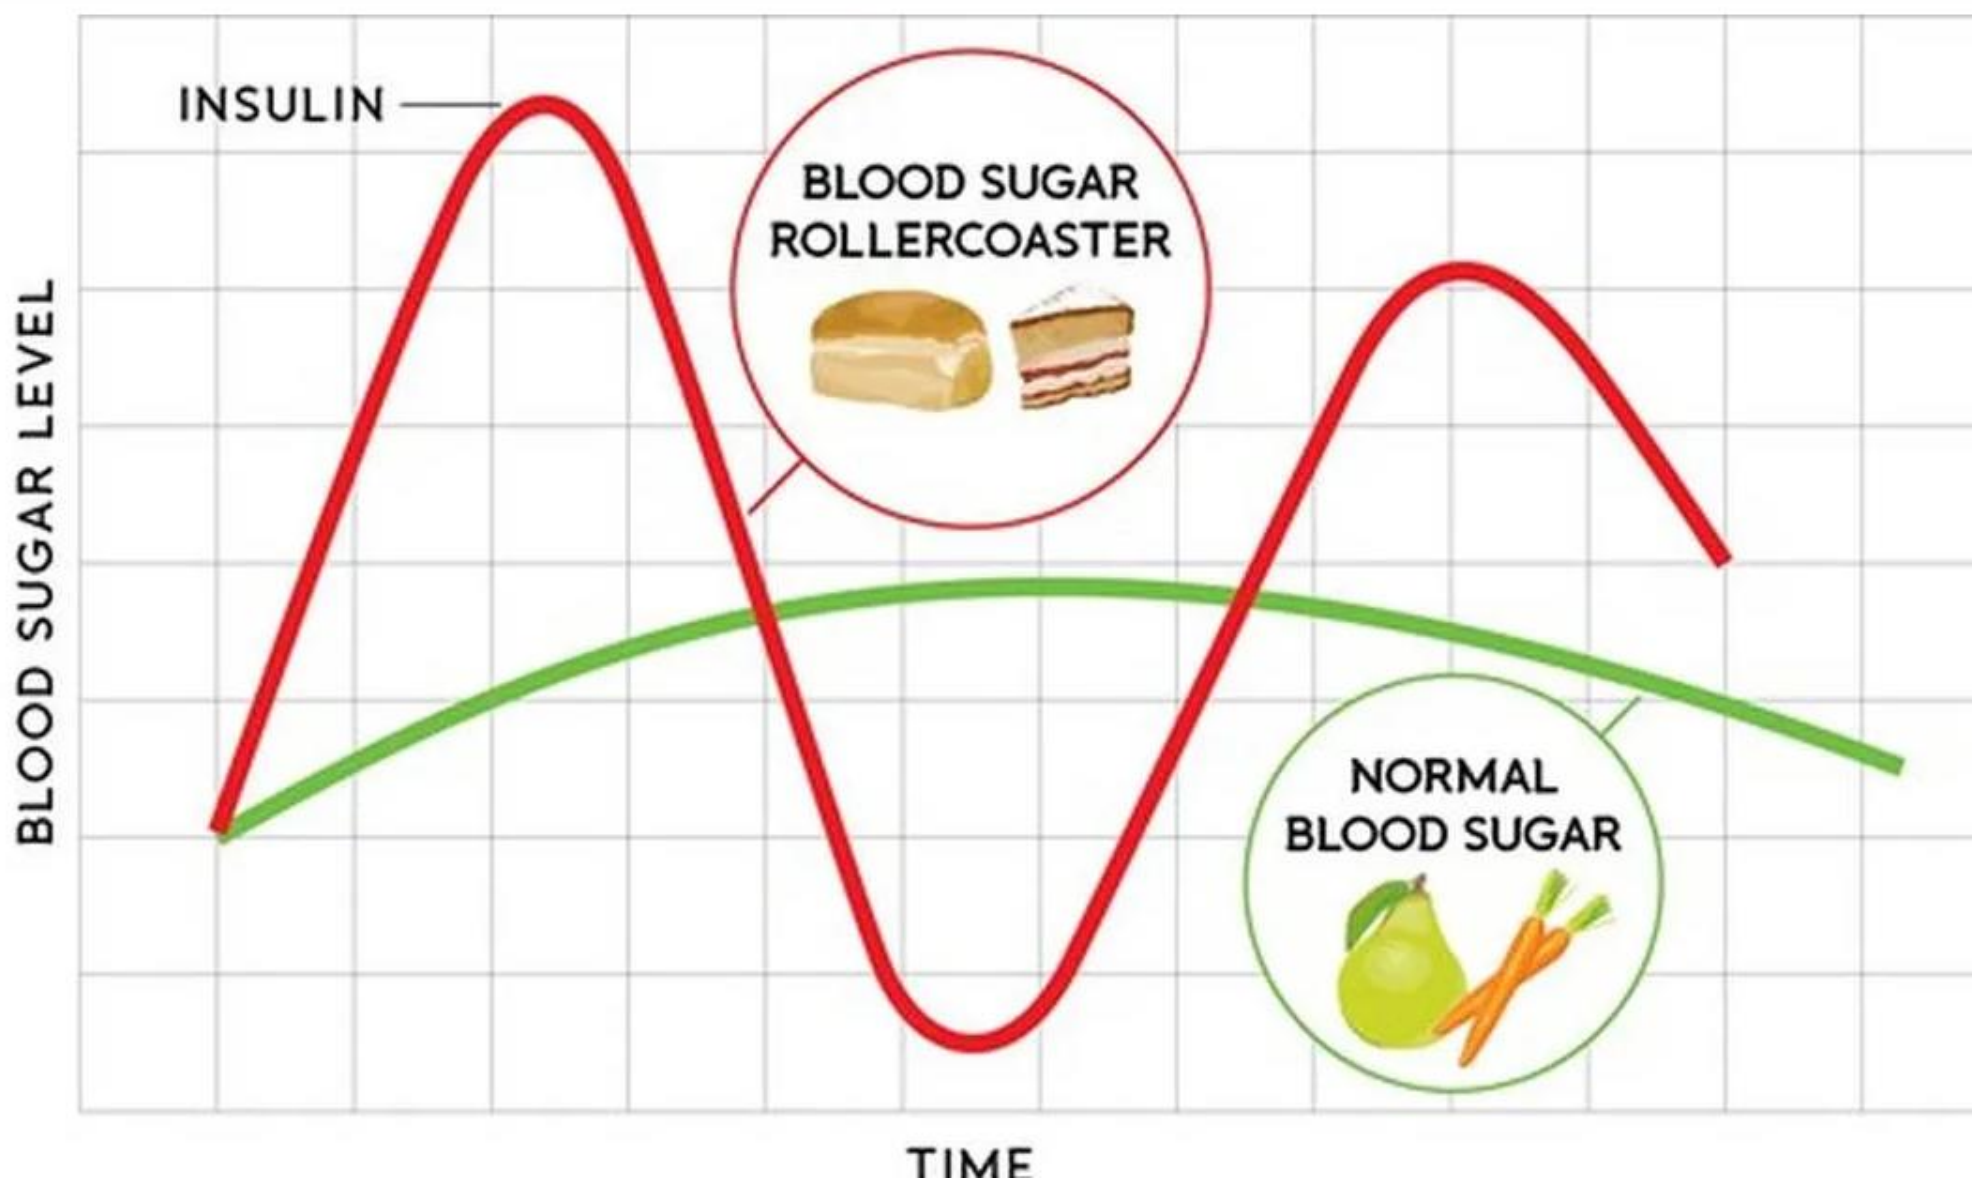

**SUPPORTS

metabolism

Curbs
cravings

Improves
energy &
lessens
fatigue

Are there any clinical studies on Transform?

Independent research from a third-party research institute on plant enzyme technology for glycemic control spurred the development of Transform. These studies were not done on our finished product but did confirm the viability of using a powerful plant enzyme blend for the conversion of sugar to fiber. Based on this research, the head of our Scientific Advisory Board lead an internal, open-label pilot study, which demonstrated measurable, compelling results and played a significant role in driving the development and launch of Transform.

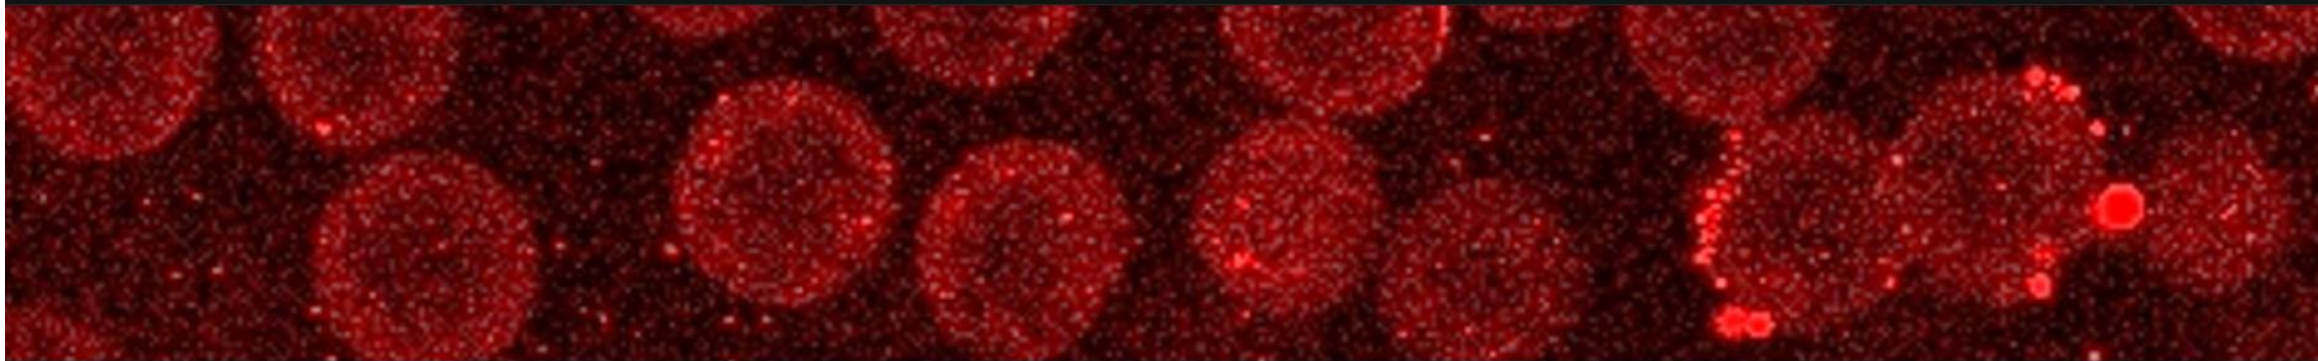

Topinka, a self-described “science geek,” and his team brought this conundrum to the innovative minds at the Wyss Institute at Harvard University during a meeting in 2018: could they create something that allowed the company to reduce the amount of sugar (specifically fructose) used in their foods without sacrificing sugar’s other beneficial properties?

“We thought we’d come to the Wyss with an impossible problem, and they turned it on its head to present an even crazier idea to solve it. We assembled a diverse team of some of the smartest people I’ve ever met to see if they could do it.”

JUDITH MOCA, HEAD OF
TECHNOLOGY DISCOVERY
AND DEVELOPMENT AT
KRAFT HEINZ

CURRENT OPPORTUNITY - STARTUP

Sugar-to-Fiber Enzyme for Healthier Food

In collaboration with Kraft Heinz, Wyss scientists have created a micro-encapsulated enzyme product that can convert sugar to gut-healthy fiber in the human

Want to help make sugar healthier?

We are seeking partners and collaborators to help de-risk this technology and spin it out into a startup.

PLANT-BASED ENZYMES

+

THERMOGP™

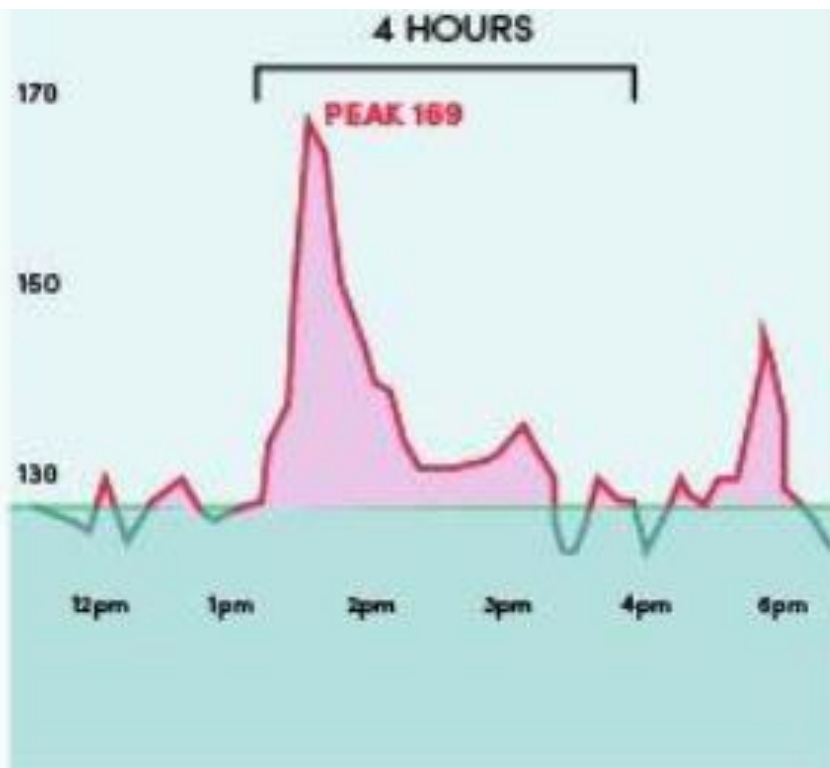

x

A powerful thermogenic that enhances the body's ability to regulate weight effectively by utilizing your body's fat reserves as a source of energy—resulting in a significant increase in natural energy and vitality. Unlike the little leagues, we fully support this "everyone wins" scenario.

HELPS MAINTAIN ALREADY-HEALTHY BLOOD SUGAR AFTER EATING

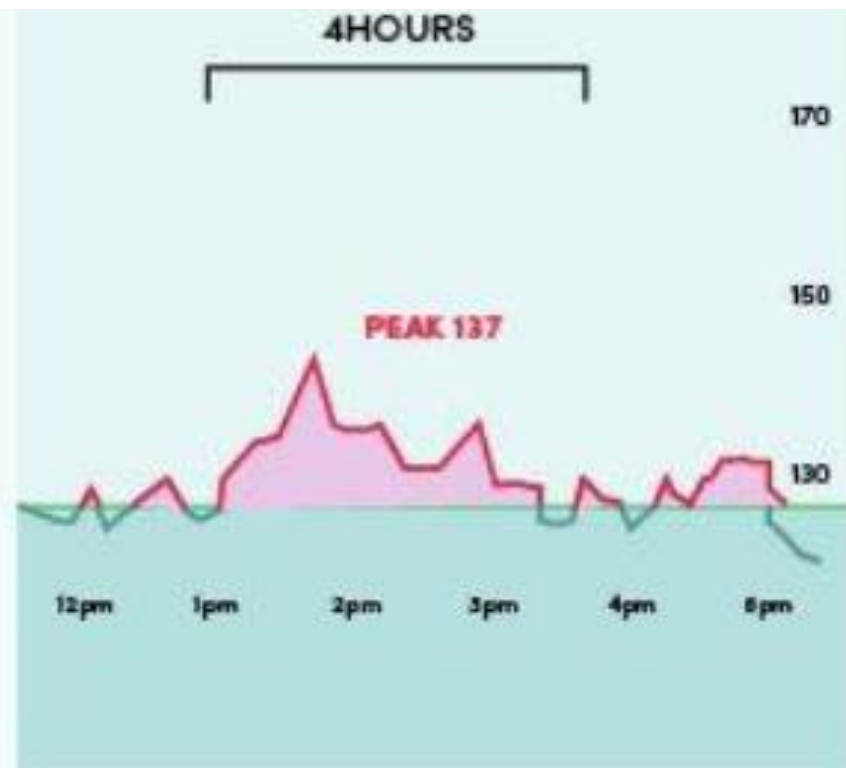

Maintaining healthy blood sugar is essential to lasting health. Transform helps inhibit sugar absorption and promote healthy glucose metabolism. Pairing Transform with healthy lifestyle choices can help avoid spikes and flatten glucose curves. The flatter the curve, the better your short- and long-term health!

Day 1: Meal only

Tester experienced significant spikes in blood sugar levels,

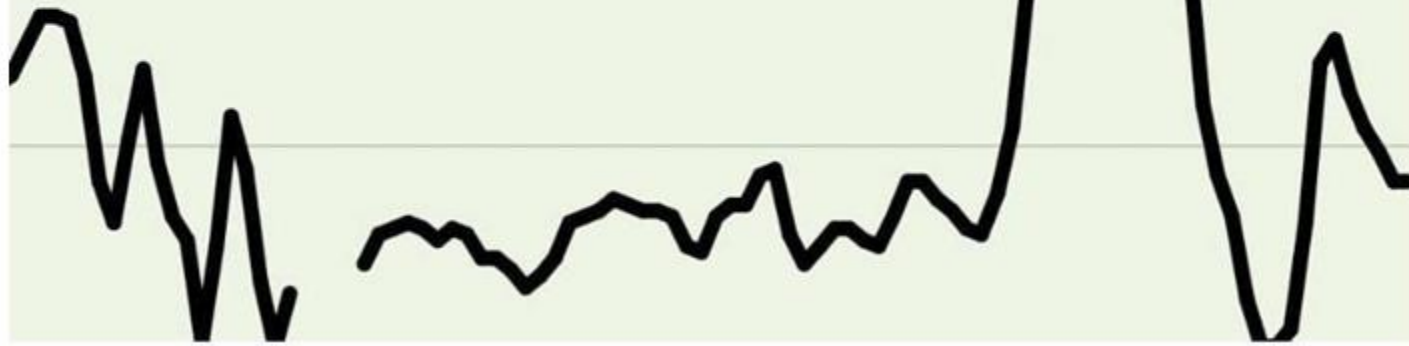

Day 2: Meal + Transform

(taken one hour before eating)

Tester's blood sugar levels remained steady for several hours

Day 1!
No Transform

Day 2!
2 Transform before
lunch / dinner

REDUCES BRAIN FOG

Transform's revolutionary formula helps minimize unhealthy glucose spikes by converting excess sugar from food into sustainable energy for your mind and your body. With its powerful blend of sugar converting enzymes, this unique formula offers a range of cognitive benefits, including heightened focus, lasting energy, and reduced fatigue.

SUPPORTS HEALTHY WEIGHT LOSS

When we spike, insulin gets released, and excess glucose gets stored in our liver, muscles, and fat cells. This is one of the ways that we gain fat on our body. Transform uses special enzymes and thermogenic compounds to enhance the body's response to food and burn fat reserves for energy, optimizing metabolism, promoting fat burning, and aiding in sustainable weight loss.

Insulin functions

The main functions of insulin include regulating blood glucose levels after food intake, and promoting the storage of nutrients and energy upon their uptake in the body. On one hand, insulin promotes the uptake of glucose into cells and its cellular utilization. On the other hand, it inhibits the mobilisation and the formation of new glucose (gluconeogenesis). Apart from that, it promotes the formation and storage of fat and the synthesis of protein. Therefore, insulin is a storage hormone.

The Link Between **MENOPAUSE AND
INSULIN RESISTANCE**

LOW ESTROGEN & PROGESTERONE

INSULIN RESISTANCE
INCREASED GLUCOSE IN BLOODSTREAM

PRE-DIABETES **WEIGHT GAIN** **DIABETES**
HIGH CHOLESTEROL **HIGH BLOOD PRESSURE**
NEUROLOGICAL **INFLAMMATION** **OXIDATIVE STRESS**

The word *PROMOTE* simply means 'let it be known'.

Repair, Rebuild, Rejuvenate

Hydrolyzed type 1 collagen peptides that provide the most absorbable, abundant collagen for your body's needs.

Benefits of Glow

Antioxidant Support

Fights free-radical damage at the cellular level.

Skin, Hair and Nail Support

Helps support skin elasticity and firmness by reducing wrinkles and cellulite, and it builds thicker, healthier hair and strengthens nails.*

Joint Health

Reduces joint stiffness and improves mobility.*

GLOW

Advanced Type 1 Collagen with Superfood Antioxidant Support

Previously known as Glow

PROVIDES
ANTIOXIDANT
SUPPORT

SUPPORTS
SKIN, HAIR,
& NAILS

IMPROVES
JOINT HEALTH

Strength, Beauty, Confidence

Collagen is a structural protein in your body. It helps support healthy bones, muscles, organs, skin, and more. As we age, our body's ability to produce collagen begins to wane, which can lead to stiffness, swollen joints, sagging skin, wrinkles, and brittle hair and nails.

Glow increases your body's collagen reserves for improved joint health, more youthful-looking skin, thicker hair, stronger nails, and a more beautiful, confident you!*

Advanced Formula

Glow is formulated with grass-fed, hydrolyzed type 1 collagen, which has been broken down into easily digestible peptides. In this format, it's able to be quickly absorbed and used by the body.*

Glow is also the first to combine the rejuvenating power of collagen peptides with a proprietary blend of eight super-antioxidant, high-ORAC fruits to help protect the body against environmental damage caused by free radicals and oxidative stress.*

FOCUS

Vitamin B Complex

Previously known as Vibe

PROMOTES
NATURAL
ENERGY

IMPROVES
MENTAL CLARITY
AND COGNITIVE
SUPPORT

SUPPORTS
OVERALL
HEALTH

Energy From Natural Sources

Focus's fast-acting formula is comprised of B vitamins and plant-based nutrients to naturally provide true energy and clarity* to help you accomplish more throughout the day.

Benefits of Focus

Natural Energy

Green tea and B vitamins are key sources for natural energy whenever you need it.

Cognitive Health

Focus is uniquely blended for mental clarity, physical adaption, and metabolic support.*

Increased Productivity

Powerful amino acids like L-Tyrosine help your body make protein for a boost to both your physical and mental performance.*

Why Do We Include B Vitamins?

B vitamins influence the production of energy within cells, naturally, without the addiction, jitters or withdrawals.*

Benefits:

Energy production*

Metabolize sugar and fat*

Strengthen immune system*

Psychological functions*

Along with B vitamins, Focus is uniquely blended with Lion's Mane mushroom, yerba mate, ginkgo biloba, DMAE, rhodiola and huperzine A for mental clarity, physical adaptation and additional metabolic support.*

Chelates give the body the ultimate chance to absorb each mineral for optimal results.*
